FLYING FORWARD

We're the professionals on the ground who ensure that everything in the skies is 'airship shape'. We operate behind the scenes as an upfront and vital contributor to the airline industry. As suppliers of aircraft parts and a comprehensive range of indispensable services to some of the biggest commercial and regional airlines and civil aerospace brands in the world, we help ensure safe passage in the air.

After 30 years in this uniquely exacting business, we're flying high with our service and delivery. We harness knowledge, experience, and technical application and our success is measured by our continued commitment to excellence in everything we do. As we enter the next decade, we are super-charged to fly forward.

GLOBAL VISION AND REGIONAL SUPPORT

Our international network of offices and our holistic systems ensure efficient delivery of our services and products. Our customers rely upon our first-class service, knowing we are always on hand for technical and logistical support.

We work with aircraft manufacturers, Original Equipment Manufacturers (OEM), Maintenance, Repair and Overhaul facilities (MRO), and repair stations. Our aviation-dedicated software programme supports our agreements with key repair facilities to always track components and keep our customers up to speed on fulfilment and delivery.

Onwards and upwards we go!

Global aviation product support and supply chain specialists.

OUR WORLDWIDE NETWORK

We have admin and sales offices in Asia (China, Singapore, Vietnam), Africa (South Africa, Nigeria), Europe (France), Middle East (Dubai) and Americas (USA, Canada, South America). Our stocking facilities are based in Asia (Singapore), France (Toulouse), South Africa (Johannesburg) and USA (Florida).

OUR PRODUCTS AND SERVICES

For three decades, Aerotechnic has been a critically important distributor and stockist of fully traceable aircraft parts including components, consumables, chemical products, and tools.

Our services include outright sales / exchanges; loans; initial provisioning (IP); stock holding and management of consignment stock and surplus stock; distributorship and broking; repairs management, warranties and E-Commerce.

Our product range covers: bearings; engine spares; hardware (such as bolts, nuts rivets, screws, and washers); igniters and exciters; lamps; lights-navigation; O-rings/packings/seals; propeller spares; starter generator spares; wheel and brake spares; switches; tapes; and many more.

FIRST CLASS SERVICE WITH THE HIGHEST QUALITY ASSURANCE

'ISO9001' and 'FAA AC00-56' accreditations assure that Aerotechnic is a factory-authorized and quality distributor and supplier of aviation equipment. Backed by our goal to continuously improve our service delivery, we are fully accountable and responsive at all stages of the production and delivery cycle.

Industry leaders can only excel if the right people are in place and our culture has always been to search for and train the best technical, financial, and human resources available. We are also conscious of the need to keep abreast of technology and its applications so that we may ensure our service delivery is always above the industry standard.
