PROUD TO PARTNER WITH AERO SPECIALTIES LEADER IN GROUND SUPPORT EQUIPMENT

This month at **Aerotechnic**, we are proud to celebrate our partnership with **AERO Specialties**, a global leader in aircraft Ground Support Equipment (GSE). This collaboration represents a shared commitment to performance, safety, and service across every corner of the aviation industry.

‘Aerotechnic, has been appointed as the African Distributor for **AERO Specialties**, a member of the **ALVEST Group**, which Group also includes companies such as **TLD** and **Powervamp** to mention a few GSE specialist companies.’

■ AERO's JetGo 900

is a standout innovation. AERO's JetGo 900 is a standout innovation in 28V Ground Power Units. With futuristic design, unmatched performance, active safety features, and a rugged build for tough ramp conditions, it's the clear choice for dependable aircraft power and our best seller.

■ Stairs and Stands

Our stands tower over the competition! AERO Specialties offers a wide array of stairs and stands for any application, from passenger boarding and crew access to customized maintenance applications.

■ Axle Jacks

These rugged jacks are built to withstand harsh conditions and provide years of safe, dependable service.

■ Oxygen and Nitrogen Systems

Our oxygen and nitrogen systems provide the best value, quality and durability in the industry. We offer complete systems or individual

■ Towbars and Heads

AERO Specialties towbars and heads offer the highest quality and durability in the industry. Systems are available for business, regional, military and commercial airframes.

■ Fluid Service Units

Available in 2, 5 and 20 gallon capacities, these sturdy units are built to withstand the test of time.

■ Solid State GPUs

AERO Specialties' new line of solid state power units have set the precedent for safety, precision, reliability and ease of use. Units are available in both 28.5V DC and 400Hz configurations.

■ TLD Ground Support Equipment

With over sixty years of industry expertise, TLD is the global leader in the design, development, manufacturing and aftersales support of ground support equipment. TLD equipment is found on all major airline tarmacs and within high priority military operations. AERO is proud to be the primary general aviation and military distributor for TLD equipment.

PUSHBACK TRACTORS: Traditional and towbarless units designed to tow business jets, helicopters, military airframes, regional and commercial aircraft.

GROUND POWER UNITS: The most compact, quiet and powerful 400Hz diesel GPUs available, TLD units have set the industry standard.

AC & HEATING UNITS: TLD's superior air conditioning and heating units provide a consistent and stable operating environment in any climate condition.

BELT LOADERS: Compatible with all aircraft types, TLD units are low profile, simple in design, and easy to maintain.

AIR START UNITS: Loaded with standard features and components that combine to produce the most versatile and cost-efficient units available.

TUGS: Featuring a heavy-duty and virtually indestructible chassis, with an ergonomic design to provide maximum driving comfort and exceptional visibility.

At **Aerotechnic**, we only partner with the best. That's why **AERO Specialties** is now part of our mission to deliver smarter, safer, and more efficient aviation support. Together, we're not just keeping aircraft moving, we're elevating the future of ground support.
