INDUSTRY ENGAGEMENT & GLOBAL PARTNERSHIPS

AEROTECHNIC NEWS UPDATE

Strengthening connections. Expanding reach. Delivering more value.

March has been a significant month for Aerotechnic South Africa, marked by meaningful industry engagement and a major step forward in our global partnerships. As we continue to grow our network and capabilities, our focus remains on delivering reliable, efficient, and forward-thinking aviation solutions.

Industry Engagement: STAVIA Summit 2026

Cape Town | March

Aerotechnic's Partner Directors attended the STAVIA Summit 2026, engaging with global partners and industry leaders across the aviation supply chain.

The summit provided a valuable platform to:

- Strengthen existing partnerships
- Explore new opportunities within the global supply network
- Share insights on industry trends, innovation, and risk mitigation

These engagements reinforce our commitment to collaboration and continuous improvement within the aviation industry.

Strategic Partnership Announcement

Aerotechnic + Future Materials
Global Vision. Regional Strength.

Aerotechnic Pty Ltd successfully concluded a strategic partnership with Future Materials, marking a key milestone in our continued international expansion. ***Aerotechnic and our international partners shall act as sole agent and exclusive reseller for Future Materials.***

This partnership builds on a long-standing relationship, with Future Materials supplying Aerotechnic Pty Ltd since 2016, and now evolving into a global partnership as of January 2026.

On March 19, our Stavia co-founders, JC Pina, JP Guyeu and CEOs Sanjeev Nookooloo and Sebastien Gerard met with Aart van der Griend, Future Materials Vice President of Sales to formalise the agreement, reflecting a strong alignment in vision, capability, and long-term objective.

What This Means for Our Clients

Future Materials is a leading supplier of aerospace-quality metals to the global aircraft manufacturing and MRO industry. With strategic global service centres and strong OEM contracts, Future Materials ensures dependable supply, quality assurance and competitive terms for the aviation sector.

This partnership strengthens Aerotechnic's ability to deliver across the aviation and MRO landscape through:

- **Improved responsiveness and service delivery across key markets**
- **Stronger MRO support through combined technical expertise**
- **Greater operational efficiency and supply chain capability**

Looking Ahead

With stronger partnerships and deeper industry engagement, Aerotechnic continues to build momentum in 2026. We remain committed to supporting our clients with reliable solutions, global reach, and the expertise needed to navigate an evolving aviation landscape.

Your Next Step

Partner with Aerotechnic South Africa and benefit from a growing global network backed by expertise and efficiency.
